► **Daibochi looks abroad to grow**

DAIBOCHI Plastic and Packaging Industry Bhd posted a net profit of RM6.5 million in the first-quarter 2016, ended March 31, up marginally from RM6.1 million recorded in the corresponding period. Revenue for the period increased to RM89.7 million from RM86.2 million due to increase in export sales, particularly orders from a Thailand customer in line with its marketing campaign. In an exchange filing yesterday, the plastic packaging concern noted it remains steadfast in the group's strategy to constantly explore opportunities to expand export sales and introduce innovative products to drive its long-term growth.
